**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 2 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Niezink et al.

Niezink et al. discloses a implanter apparatus with a liquid reservoir (11), conduit (8) and means for dispensing in pump (12).

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 3, 4, 6, 7 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Niezink et al..

Niezink et al. discloses the invention substantially as claimed except for a specifically defined spray tip. Where conduit (8) enters passage (7) which in turn enters bore (9) a nozzle or spray tip effect is achieved due to the differences in diameter of the passages thus allowing for the dispensing of the fluid into the needle of the device.

***Allowable Subject Matter***

5. Claims 5, 8 and 11 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Conclusion***
